

REAL ESTATE

FINDING VALUE

Module 4 SP Data Science
Andro Tikvica

OUR COMPANY

Investment Consultant focused on identifying trends in the
Real Estate Markets.

MYHOME
REAL ESTATE

Why Does This Matter

Get yourself on the Property Ladder:

1. Life Long Value
2. Less risk than traditional equity investing
3. Significant appreciation - The 25 year average for Commercial, Residential and Diversified real estate is above 10% a year. (source: [Investopedia](#))
4. And these are averages, with the ability to identify geographic trends you may be able to secure even higher returns

Market Analysis

Hawaii

Remote Working
Year Long Appeal

Time Period

1996 - 2018
Tried and Tested

Property Value

\$677,000 (2018)
Large range

INCLUDE THE CRASH

Identify areas that
have been historically
resilient to crashes

ROI

We are not concerned
with the absolute
returns of an
investment.

Initial Insights
